*Dear DNBK Family of the World:*

*May this Christmas Season be very Merry and Peaceful with joyous feeling of oneness and happiness for everyone!*

*We hope and pray that this holiday time will be a moment of serene reflection for the common goodness of humanity. So the smallest things and feelings shared in life can be the greatest joy in life. Despite the time of relentless unevenness, roughness, colossal hurdles in history, the great light always appeared giving hope and strength for the humanity of tomorrow.*

*Thus, Christmas always gives us a most precious gift called a chance of lifetime. In celebration of birth of Christ, its spiritual connection goes beyond the spectrum of religious domain and its immortal wisdom is shared by those who entrust their future in great humanity. We appreciate simple life every day as a miracle of Christmas.*

*We, DNBK family of Japan and the world wish to extend our sincerest prayers to all our dear members across the oceans and continents for their happiness and joyful time in this lovely season.*

*Gassho, (Prayer for Peace and Harmony)*
